# OLD SETTLER OF DAYTONA PASSES AWAY

## MRS. EDGAR N. WALDRON CALLED BY GRIM REAPER

CAME TO DAYTONA IN JANUARY  
1877 AND TAUGHT THE ONLY  
SCHOOL HERE FOR TWO YEARS  
AFTER ARRIVAL.

Mrs. Edgar N. Waldron, one of  
the early settlers of Daytona, died  
at her home on North Ridgewood  
Thursday evening, and the  
funeral will be held from her late  
residence Saturday afternoon, at  
11 o'clock.

Mrs. Waldron's maiden name was  
Anna E. Cross. She was a daugh-  
ter of Rev. Gorham Cross and was  
born near Utica, N. Y., January 30,  
1818. She studied at Oberlin col-  
lege. She taught school many years  
and for several years was a teacher  
at the free school under the American  
missionary association.

Coming to Daytona in January  
1877, she taught the only school for  
two years and then Jan. 15, 1879,  
she married Mr. Waldron. They  
lived in Daytona ever since.

She was one of the first members  
of the Congregational church.  
She was a devoted mother and  
her children were of a  
happy disposition and was the  
mother of many a social gathering  
which lasted nearly a year.  
She had the loving care of her  
two sisters, who reside in this  
city. Mrs. Amelia A. Wilkinson, Mrs.  
J. S. Benedict and Miss Lucy A.  
Cross. She had three brothers, the  
late Mr. Andrew N. Cross of Minne-  
sota, Mr. Gorham P. Cross of  
Daytona, and Rev. R. T.  
Cross, who has been in Daytona the  
last few weeks. Mrs. Waldron's an-  
cestors came all lines, reached back to  
the settlers of New England.

## DEAL FOR FARMER MADE BY COL. ROOSEVELT

### FORMER PRESIDENT DELIVERS THIRD SET SPEECH OF HIS PRESENT CAMPAIGN THROUGH THE WEST.

ALBANY, Minn., March 29.—  
Theodore Roosevelt delivered the  
third set speech of his western trip  
today. He called for a square  
deal for the farmer and the wage  
worker, taking the tariff as his  
subject.

The farmer and the working  
man, Col. Roosevelt said, "willingly  
pay a fair share of the government  
expenses, but they must not be  
asked to do more. Unless prosperity  
comes to the office, then it is not  
the right kind of prosperity. While  
the employer should have his fair  
share of the prosperity, the wage  
worker should have a right to in-  
crease his full share be distributed  
among the men who work with their  
hands."

During his trip through Iowa,  
Roosevelt found Senator Cummins  
and made considerable gain with  
the Iowa boom.

Col. Roosevelt said he believes in  
protection as a principle, but when  
it becomes a jumble of privileges and  
preferences, then the American people  
are in trouble of it.

# KING SIGNS MINIMUM WAGE BILL

## OPENS WAY TO A SETTLEMENT OF DISASTROUS COAL STRIKE

REPRESENTATIVES OF MINERS  
AND MINE OWNERS WILL NOW  
ASSEMBLE TO AGREE UPON  
THE MINIMUM WAGE.

LONDON, March 29.—King George  
today signed the minimum wage bill,  
making it a law.

This opens an avenue toward the  
settlement of the miners' struggle,  
under which the joint boards of rep-  
resentatives of the miners and the  
mine owners will assemble in the  
various coal fields and agree upon  
a definite wage, which, as a  
minimum wage, must be inserted in  
all the agreements.

# CARLTONS MUST SERVE LIFE FOR THE ESPANOLA MURDER

## STATE SUPREME COURT AF- FIRMS DECISION OF LOWER COURT ON DOUBLE CRIME OF LAST WINTER.

Dan, Marion, and Bascom Carlton  
must serve life sentences for the  
murder of Deputy Sheriff Guy  
White and Abe Schneider at Espanola  
last winter. Convicted at the fall  
term of the circuit court their case  
was appealed to the supreme court  
and the supreme court has re-  
affirmed the decision of the  
circuit court for St. Johns county.  
This means that Sheriff Perry will  
soon deliver them to the state  
penitentiary to begin their terms.

The opinion handed down by the  
supreme court is in brief as follows:  
"The Carlton brothers were charged  
in the circuit court with having mur-  
dered Guy White and Abe Schneider,  
deputy sheriffs. Guy White and Abe  
Schneider arrested the Carlton boys  
and carried them to the calaboose in  
the little town of Espanola. After  
they entered the calaboose, Deputy  
Sheriff White searched Dan and Ma-  
rion Carlton, and was attempting to  
search Bascom, the youngest of the  
brothers, when he immediately drew  
his pistol and fired, shooting White  
through the heart, and in the same  
instant turned and shot Schneider.  
Both of them fell in the corridor of  
the calaboose.

"On appeal to the supreme court  
the lower court was sustained and  
the Carlton boys will be required to  
serve in the state prison for life."  
Judge Hocker and Judge Taylor  
dissented as to Dan Carlton.

# SERIOUS BLAZE NARROWLY AVERTED AT THE LAUNDRY

## ENTIRE FLOOR AROUND ENGINE AND BOILER DESTROYED—THE EARLY DISCOVERY ALONE PRE- VENTED GREATER LOSS.

What might have resulted in a  
serious blaze at the Daytona steam  
laundry, at the corner of Beach street  
and Fairview avenue, was prevented  
about 8 o'clock Wednesday evening  
by Charles Galtor, who happened to be  
passing at the time and noticed an  
unusual light in the building.  
Without taking time to investigate  
Mr. Galtor notified E. L. Shear, the  
owner of the laundry.

Returning together the two men  
found that the fireman, who is a  
new employee at the plant, had left  
the building without taking due care  
of the engine and boiler, and the  
floor around the ash pit had caught  
fire. By hasty work the two men  
managed to take care of the blaze  
without turning in an alarm and  
few people even in the immediate  
neighborhood knew that there was a  
blaze.

While the laundry will not lose  
any time at present because of the  
fire, when business is so that the  
damage can be repaired it is likely  
that the loss will reach a consider-  
able extent, for the floor and founda-  
tion around that part of the building  
will have to be entirely replaced.

# SENATOR TAYLOR NOT ANY BETTER TODAY.

WASHINGTON, March 29.—Senator

erated upon for gall stones yester-  
day, passed a comfortable night. The  
physicians in attendance, however,  
say there is no change for the  
better today.

# TEXTILE STRIKE AVERTED IN NEW BEDFORD, MASS.

NEW BEDFORD, Mass., March 29.—  
The Manufacturers association to-  
day granted the operatives the ten  
per cent. increase in wages asked  
for, which averts the strike of  
25,000 mill workers.

# TWO BLACKS LYNCHED IN CAROLINA

## HANGED TO RAFTER IN SHOP MOB SPEEDILY DISPERSED

### CHARGED WITH LURING WHITE MAN TO CEMETERY AND COM- PELLING HIM TO DRINK PINT OF LIQUOR.

BLACKSBURG, S. C., March 29.—  
Joe Brisson and Frank Whisonant,  
negroes, both about 30 years old,  
were taken from jail early this morn-  
ing and hanged to a rafter in a shop  
blacksmith shop. The mob then  
speedily dispersed.

It is alleged the negroes lured a  
respectable white man to a cemetery,  
compelled him to drink a pint of  
liquor and then forced him to un-  
mentionable action. The authorities  
are investigating today.

### Goes to Death Singing—

MACON, Ga., March 29.—Will Bell,  
a negro, was hanged today for the  
murder of his wife. He went to his  
death singing.

### Hanged for Wife Murder—

ATHENS, Ga., March 29.—Hezekiah  
Stevens, who brutally murdered his  
wife, was hanged here this morning.  
He faced the gallows calmly.

# U. S. COTTON COMPANY GRANTS WAGE INCREASE.

PAWTUCKET, R. I., March 29.—  
The United States Cotton company  
today announced a 10 per cent. in-  
crease in wages. The action of  
the company affects 25,000 operatives.

J. B. Garrison purchased last  
week from J. C. Clark his property  
on Bay street, including 80 feet  
frontage on that street and running  
back 200 feet, with two cottages  
upon the property.

# STILL WINTER IN THE NORTH WITH SPRING FAR FROM VIEW

## GOOD SLEIGHING WITH PLENTY OF SNOW AND MERCURY BE- LOW ZERO UP IN NEW YORK STATE.

That the people who have al-  
ready gone north have found them-  
selves plunged into the depths of  
real winter weather and with the  
prospects of suffering several weeks  
of the same brand before spring  
puts in an appearance, is shown by  
the following extract from a letter,  
dated last Tuesday, received by A.  
McF. Porter from Julius Brockwald,  
and written from Dolgeville, New  
York:

"I have been home now since a  
week ago Sunday. We are enjoying  
good sleighing yet. It was four de-  
grees below zero this morning. You  
had better come up and freeze out a  
little. It snowed about 10 inches  
Sunday and there is about two  
feet on the ground now, so you can  
see we are not having Florida weath-  
er, and the appearance is that we  
will not have any spring before May  
1, unless you crowd the sunshine  
our way."

# STOLE A MARCH ON FRIENDS AND WERE QUIETLY WEDDED

## MISS EMMA L. PARKINS AND PETER V. SULLIVAN MAR- RIED THURSDAY EVENING AT CONGREGATIONAL MANSE.

Miss Emma L. Parkins of this  
city and Peter V. Sullivan of the  
Nutmeg State, stole a march on their  
friends and were quietly married  
Thursday evening at the Congrega-  
tional church, at 7 o'clock, Rev. Dr.  
B. F. Marsh officiating.

The bride is a sister of Mrs.  
Henry Piepgras and Mrs. Joseph Os-  
borne of this city and has been mak-  
ing her home with Mr. and Mrs. Os-  
borne on Orange avenue, and the  
groom has been employed in the  
city during the winter. Mr. and Mrs.  
Sullivan will remain here until some  
time next month and then go to Mr.  
Sullivan's home in Connecticut.

# ARMS FOR AMERICANS IN MEXICO

## LARGE SHIPMENT AND PLENTY OF AMMUNITION SENT WILSON

### AMBASSADOR URGES THAT AMERICANS ARE IN DANGER AND SHOULD BE ARMED TO PROTECT THEMSELVES.

WASHINGTON, March 29.—A  
thousand Krag Jorgensen rifles and  
a large supply of army revolvers and  
a good supply of ammunition has  
been sent to Mexico City by Ward  
Blue via Veracruz, to be distributed  
among Americans by Ambassador  
Wilson, it was learned today.

Wilson urged that Americans are  
in danger and should be armed. If  
the situation warrants Ambassador  
Wilson is empowered to order ma-  
rines landed and proceed to Mexico  
City.

# NEITHER SCHIFF NOR GANS IS GUILTY OF CONSPIRACY

## GRAND JURY SAYS FOULKE- BRANDT SHOULD HAVE BEEN INDICTED FOR GRAND LAR- CENY, NOT BURGLARY.

NEW YORK, March 29.—After 41  
witnesses had been examined the  
grand jury investigating the case  
of Foulke-Brandt handed in a pre-  
sessment today, holding that neither  
Mortimer Schiff, who employed  
Brandt as a valet, nor Schiff's per-  
sonal counsel, Howard Gans, had  
been guilty of conspiracy in causing  
the former servant to be sent to  
prison for 30 years for alleged bur-  
glary.

At the same time the grand jury  
holds that Brandt should not have  
been indicted for burglary but for  
grand larceny. The court refused to  
accept the grand jury present-  
ment.

Brandt is now out on bail and it  
is not believed he will be imprisoned  
again.

# DAILY STOCK MARKET REPORT.

NEW YORK, March 29.—Harriman  
stock and Canadian Pacific led  
stocks advanced at the opening to-  
day. Canadian Pacific was two and  
five-eighths higher. The general list  
was stronger and higher. Cotton was  
firm and one to five higher, with  
May quoted at \$19.55, July \$19.67.

By noon stocks became irregular  
and heavy selling started the  
prices of some stocks on the decline.

### Wheat Firm and Higher—

CHICAGO, March 29.—Wheat was  
firm today and a quarter to three-  
eighths higher. May was quoted at  
\$1.03 3-4. Provisions were again  
higher; May pork \$17.25; lard \$9.80,  
ribs (July) \$9.85. Hogs were five  
higher and cattle steady.

# OWENS' BODY WILL GO TO BALTIMORE

## TO BE BURIED BESIDE THOSE OF HIS FATHER AND MOTHER

### COLLISION WHICH COST HIS LIFE FIRST FATAL ACCIDENT ON BEACH DURING PAST SEVEN YEARS.

The body of Clarence Whymann  
Owens, who died Thursday afternoon  
after suffering continuously for one  
week with terrible injuries received  
in an automobile collision on the  
beach, will be started Saturday morn-  
ing for his former home in Baltimore,  
and will be laid to rest in a cemetery  
in that city beside the bodies of  
his father and mother.

The collision which cost the life  
of Mr. Owens is the first fatal ac-  
cident on the beach in the past seven  
years and the circumstances are par-  
ticularly pathetic because nobody can  
really be blamed for this smashing.

Immediately after the two cars  
came together in front of the Claren-  
don hotel and the mangled body of  
the driver of the little racing car  
was taken from beneath the wrecked  
machine and removed to the hospital.  
It was believed Mr. Owens was fa-  
tally injured. Heroic efforts were  
made by several physicians and sur-  
geons to save the life of the injured  
man, and his rugged constitution and  
strong nerve kept him up better than  
was expected. It was thought at  
first he could not survive the  
shock and suffering of the injuries  
and the operation, but the injured  
man never lost consciousness and  
made a hard fight for life.

For a few days a slight hope was  
held that he might ultimately re-  
cover, but the bruised, mangled and  
torn body could not stand the strain  
and when the turn for the worse  
came about Wednesday morning he  
sank gradually until death ended his  
terrible suffering Thursday after-  
noon. He remained unconscious con-  
tinuously until within a few hours  
of the end.

Mr. Owens came here from Bay-  
port, Long Island, late in the fall  
and rented the Bryant cottage on  
South Ridgewood avenue, making all  
arrangements to spend the winter  
season in Daytona. A short time af-  
terward he was joined here by his  
wife. Mr. and Mrs. Owens and the  
little, yellow Buick racing automobile,  
the one he was driving at the time  
of the fatal accident, have been fre-  
quently seen on the streets of Day-  
tona and on the beach during the  
winter months.

Mr. Owens was 31 years of age  
and was born in Louisiana. He was  
raised and educated in Baltimore by  
an uncle, A. W. Woens, his father  
and mother having both died when  
he was young. At the age of 17 he  
enlisted in the Baltimore naval re-  
serve and served during the  
Spanish-American war. Later he  
entered Cornell university and still  
later started a course in medicine in  
Johns Hopkins university in Balti-  
more.

February 27, 1905, he was married  
to Miss Minerva Allen, daughter of a  
wealthy and prominent real estate  
man of Bayport, Long Island. The  
marriage is said to have been the  
result of an acquaintance and court-  
ship which began in Cuba. Mrs.  
Owens has been constantly in at-  
tendance at the bedside of the in-  
jured man since the accident last  
week Thursday. She will accompany  
the body to Baltimore.

**Tourists in Switzerland.**  
Travelers in Switzerland average about 600,000 a year, of which number about six per cent are Americans.  
**Christmas Makes Demand.**  
The German demand for apples and nuts to hang on Christmas trees is always very great. The inland production of apples, even in a favorable year, although large, is far too small for the demand, in spite of the fact that thousands of acres of new trees are planted each year. In order to supply the inland market, large quantities of apples and nuts must be imported from abroad each year.

**HOTEL CLARENDON**  
The Clarendon beach has become quite a rendezvous these ideal balmy days. Hundreds are going in the surf daily, the clear, crystal-like waters being a treat, particularly to those coming from the inland cities. The leading attractions here are the life lines and guards on duty for the safety of the bathers, also the perfectly equipped bath sands and shower baths located on the ground floor of the hotel under the arcade, while spectators are grouped about the sands and upon the ocean front verandas enjoying the briny ozone, and watching bathers on hand for the ever-popular dip.  
Wm. F. A. Kendall, Cleveland, G. O. Hall and Miss L. A. Phillips, New York, arrived yesterday from Palm Beach, for a few days' visit before returning north. Miss Phillips is the bright and spicy newspaper correspondent of the New York Herald and other papers during the summer season, and has the leading hotels of the White mountains under her special supervision.  
Mr and Mrs E. G. Rust Saginaw Mich, Mr and Mrs J. P. Miller Oswego N. Y., Mr and Mrs James H. Corbett Miss Sara Corbett Kitchanning Pa, W. L. Wade Laconia N. H. are other late arrivals.

**CURIOUS BITS OF HISTORY**  
**THE ORIGIN OF TAMMANY.**  
By A. W. MACY.  
The Society of Tammany, or Columbian Order, was formed in New York city in 1789, and has been a power in city, state and national politics ever since. Its primary object was to offset the influence of the Society of Cincinnati. The latter was formed by the surviving officers of the Revolution, and as its constitution provided that its membership should be perpetuated by the eldest sons of members, it was regarded by many as too aristocratic in its tendencies. The Society of Tammany professed to be far more democratic in its character. It took its name from a noted chief of the Delaware Indians. Its chief founder was William Mooney, a native-born American of Irish extraction. The society is nominally a charitable association, fraternal in its nature, and quite distinct from the general committee of the Tammany Democracy. It takes a very prominent part in politics, nevertheless. It claims to have cultivated fourteen national parties. Aaron Burr was a prominent member of Tammany in its earlier years.

"Yes, once, and only once."  
"Did you win anything?"  
"No, begorra; that I didn't."  
"Why, how was that?"  
"Well, you see, I backed the blessed horse through a shop window, and I had to pay \$10."

**Kodak Booklets.**  
A Kodak owner printed some good negatives in soft sepia shades and mounted them in books made from heavy tinted paper, tying the booklets with pretty ribbon. An aunt, who never saw a mountain, enjoyed pictures of South Cheyenne canyon, Colorado. Another liked the homes of several relatives. Grandmother enjoyed a variety of snapshots of her grandchildren. A dozen negatives can be made in very short time and will cost less than \$1.—Woman's Home Companion.

**Cure for Dime Novel Reading.**  
It was asked recently what could be done to stop boys from reading dime novels, and the reply of one observer was: "Teach dime novels in the same way that you do English in the high schools and that will soon stop it." I know one or two young folks who will never read Scott, because Ivanhoe was taken up as a school subject.

**Vanity in Wearing Hair Long.**  
The church for hundreds of years fought strenuously against long hair, declaring it to be vain, as doubtless it was, and is. Most of the merry, pleasure-loving monarchs in history and their subjects wore the hair in fastidious and elaborate ways. On the other hand, the Spartans, the stern followers of Cromwell, and the Puritans wore their hair short. The wax figures in hair-dressing shops, adorned with masses of puffs and curls, lead one to think that the present-day methods of hair-dressing are not unlike those practiced hundreds of years ago. It seems certain that, while women still continue to consider puffs and switches as part of the necessary paraphernalia of the head, men have discarded long hair for good and all, with the exception of the few musicians, poets, or painters who think it incumbent on them to let their locks grow long.

# The Word

By Wilbur D. Nesbit

In the beginning was the Word, and the Word was with God, and the Word was God.—St. John 1:1

It breathed in the primal chaos, it shone in the first great sun, It pulsed in the glowing ether or ever a world was done— And through all the empty eons when never a star had place It swept in eternal grandeur across all the fields of space.

The hour that the first sky glowed with silver and crimson bars, It rose in the marvel-chorus—the song of the morning stars; Tremendous and deep and mighty, the Word was the soul of things Ere brother made war on brother or folk knew of slaves and kings.

For far in the outer splendor, where systems are dimmed to haze And orbs that we never dream of go spinning their nights and days, The Word is the law forever, and was ere the birth of time; It lived in the light eternal through centuries all sublime.

And we with our books and letters, and we with our codes and creeds, We dim it in clumsy language, we hush it with barren deeds; Full fat with the pride of being we read with our narrowed eyes The truth as we fain would spell it—we puny ones, overwise.

And how may we read or hear it?—We quibblers of things and deeds, And how may we sense its forming forever to fit our needs? We babble of plan and purpose, we question of What and Why, Nor read in the apple blossom, nor see in the star-strewn sky!

(Copyright, 1912, by W. G. Chapman.)

**Odd Method of Spite.**  
A man in Temesvar, Hungary, who was summoned the other day for assaulting a neighbor, pleaded that the latter used to spite him by buying a new hat for his wife every month, so that he was obliged to do the same for his own wife.

**Popularity of "Rock of Ages."**  
When Toplady in 1776 wrote the "Rock of Ages" he could not have conceived that it would become so widely known or so popular among all shades of religious opinion. It was this hymn that Mr. Gladstone translated into three languages, and which the Prince Consort asked for when on his death-bed.

**Wooden Teeth.**  
Japanese dentists have introduced wood as a substitute for porcelain and rhinoceros ivory. The wooden teeth used by the Japanese dentist are remarkably natural in appearance and in the fine bluish color peculiar to the teeth of the Malay race. The teeth are fastened in place by a secret process jealously guarded by its inventor.—Harper's Weekly.

**The Average Man.**  
The average man is a person who can remember that you owe him \$5 a good while after he has forgotten that you named one of your children after him.—Galveston News.

## FIGHT OF DUCK AND OYSTER

Bivalve Conquered by Clinging to the Fowl's Bill Until the Bird Was Drowned.

Not long ago there occurred a lively contest in Maryland waters between a duck and an oyster. The oyster was victorious, but it was a fatal victory, for when the bivalve had killed the duck there appeared a man who killed the oyster and ate them both.

The combat between the duck and the oyster was of the rough and tumble kind. The duck was large and full grown. It was of the diving species frequently seen in those waters.

Now when the oyster feeds it opens its shell so wide that the full oyster itself is plainly visible. The sight of such a morsel was too great a temptation for the duck. He made a head-long plunge, inserting his bill between the oyster's open shell.

Like a flash the shell closed on the duck's beak. Then came a struggle for life. The oyster, which was quite a large one, was dragged from its bed, with three smaller bivalves clinging to it, the cluster being heavy enough to keep the duck's head under water.

In this way the bird drowned. Its buoyancy was sufficient to float it with the oysters, and thus it drifted near the dock, where it was captured. When taken from the water the oyster was clinging to the bird's beak with such force that considerable difficulty was had in breaking its hold.

# Great Premium Offer

THE circulation of The Gazette-News is already large but the publisher is determined to add several hundred more names to the list and in order to do so makes several offers that you cannot afford to miss.

We want to give every housewife in this country a new pair of SHEARS—not that we think you are out of shears at you: home but we know that no matter how many pair of shears you have, you will appreciate a new pair, especially the Eureka Trimmer Shears, which is a superior shear in every way to the ordinary pair of shears generally used in the everyday household.

This is not a philanthropic movement on our part nor a plan to disburse charity, nor is it a scheme to force people to buying something they do not need. We have learned the value of the housewife's good will, and this will be considered by us in offering these

## Eureka Bent Trimmer Shears

We have bought another gross for distribution and those who do not respond to our offer immediately may not be able to get a pair. If you want to secure a pair

## ORDER THEM RIGHT NOW

then you will be sure of receiving your shears. This is a very liberal offer and one that can be taken advantage of by everyone in this country, and we want readers to our paper. We believe this offer will more than satisfy the most exacting subscriber.

# Watch Daytona Grow

Watch it through the columns of The Daytona-Gazette News. It is published every Saturday the year round. More improvements will be made in Daytona and vicinity during the coming summer than for several years past and you will want, of course, to keep abreast with the progress of the community.

It gives you more local news than all other local papers of Vidalia combined. Many of the little paragraphs about persons with whom you are acquainted will also interest you.

The subscription price is just \$2.50 a year, and we give you a useful pair of SHEARS as a present if you subscribe before the year is exhausted.

It will tell you of the improvements that are being made during the summer when you are at your northern abode.

Philadelphia, Pa. (AP)—The U.S. Supreme Court on Tuesday rejected a challenge by the American Automobile Manufacturers Association to a federal law mandating that cars be equipped with air pollution controls. The court's 5-4 decision, announced by Chief Justice Warren, upheld the law, which requires that new cars be equipped with air pollution controls by 1975. The law was passed by Congress in 1970. The manufacturers' association argued that the law was unconstitutional because it violated the Fifth Amendment's guarantee of due process. The court rejected the argument, saying that the law was a valid exercise of Congress's power to regulate interstate commerce.

The American side of the story is told in the new book *China's Road to Reform* by W. C. Chambers, Jr. in China. Mr. Chambers is a senior fellow at the Center for Strategic Studies in the Hoover Institution, Stanford University. He has been writing for the past several years about the economic reforms in China. The book is a collection of essays, some of which were published in the *Wall Street Journal*, *Foreign Affairs*, and *The New York Times*. It is a well-written and informative book that provides a detailed look at the economic reforms in China. It is a must-read for anyone interested in the economic development of China.

## READ The Daytona Gazette-News

**SEABREEZE, Mar. 29**—Now that Seabreeze and Daytona Beach are developing so rapidly the confusion arising from streets having the same name, not corresponding in continuance through the two peninsula towns is becoming more and more apparent. Public sentiment should be sufficiently aroused on the subject to get up petitions to the town councils of the respective towns to change this conditions of things. What profit is there in having Valley street called Halifax avenue in North Seabreeze, especially as there is a Halifax avenue in South Daytona Beach, the thoroughfare from the South bridge? Why have Atlantic avenue in Seabreeze changed to Grandview avenue after it reaches the Daytona Beach incorporation line? Why not change Pinewood avenue and Pine street to Peninsula drive? Why not change Bath street to Grandview? Let the subject be agitated by Vox Populi, Bono Publico, Good Citizen or others who may not desire to fire from behind convenient fences or in the open for the good of these future cities.

The auction sale of the Weatherly brothers cottages and lots and W. C. Cannon's lots by Chas. A. Kenney took place, as advertised, Tuesday morning. It was rather too late in the season, following the numerous other auction sales in this vicinity, to attract considerable interest. T. S. Ryan of Mechanicsville, N. Y., who is spending the winter at Daytona with his wife, purchased the cottages, and C. M. Gould, who owns a business block at Daytona Beach, purchased the lot adjacent on the south. Both lots have a fifty-foot frontage on Pinewood avenue. W. C. Cannon purchased Weatherly cottage No. 1, Mrs. Sallie Rogers purchased cottage No. 2, and the beautiful new cottage which was only recently finished, is said to have been bid in rather than be sold at too great sacrifice. Mr. Ryan contemplates building a winter home on the lot purchased by him.

It will be a matter of interest to many to know that Thomas Keaton, who had his leg amputated at the Klock hospital, Daytona, last fall, and who was taken back to his old home in Douglasville, Ga., has entirely recovered his health, and has ordered an artificial limb.

Mrs. A. E. Hasbrook of Dulles, Pa., is visiting her cousin, Mrs. Farrell and family at her winter home on Halifax avenue. Mrs. Hasbrook's husband is a prominent newspaper man of his city.

Many of the tourists who expected to leave next week have wisely decided to postpone their departure until the recent cold spell is broken.

Mr. and Mrs. Waterson and party were at home last week but left again Tuesday morning in their boat for another camping bout at Ponce Park.

Rev. G. Allison Barnes and family, who have been at Seminole lodge for some time, left Tuesday for Boston, where he has a church.

Mrs. Genon, her sister, Miss Louise Scott and friend, Miss Russell, of Knoxville, Tenn., were among the Monday arrivals.

Miss Elise Ebeling of Columbus, O., and Miss Jennie Hummelin of Detroit, Mich., are the charming young guests of Mr. and Mrs. F. R. Laughlin at their winter home on University boulevard.

Mrs. B. W. Woodward, maid, and house guests, Mr. and Mrs. Halliwell and Mrs. McFarland, left Saturday on their return to Kansas City and Philadelphia, respectively. Mrs. Woodward has been spending the season at her winter home, Rose Castle on the Halifax.

Mrs. Mary Meyers of Nashville, Tenn., Mr. and Mrs. Harriott and three children, and aunt, Mrs. Cohen of St. Louis, Mo., are among the week's arrivals.

Miss Emily Meyers was called to her home in Nashville, Tenn., last week by the illness of an aunt, leaving her mother, Mrs. Mary Meyers, who has been occupying one of the Koopersperger cottages, to be joined shortly by her sister and niece.

Mrs. Wallace, who has been a hotel guest here for several months, left Tuesday for Merritt Island on a brief visit.

Mrs. Homer and her young son of Atlanta, Ga., and her sister, Mrs. Phelps of Detroit, Mich., arrived in the city Tuesday for a short stay.

W. D. Stark, traveling passenger agent of the Atlantic Coast Line, has rented the Osceola beach cottage for the month, and his family, consisting of his wife, mother, Mrs. Wm. D. Stark, and sister-in-law, Mrs. LaMar Stark, are now comfortably established on the beach.

Miss Ware, who has been spending the winter, as usual, in Seabreeze, is in the Daytona hospital for a severe cold.

Mrs. Joselin returned Monday from Palm Beach from a week's visit from that "Garden of Allah."

Mrs. S. L. Harroll and three children and friend, Miss Lillian Lowder, left Sunday on their return to Bloomington, Ind. They have been occupying Mrs. Dryer's home on Pinewood avenue.

Mrs. Harrison Loring, Miss Helen and Lucetta M. Gardiner, Jas. Haywood and daughter, Miss Heywood of Canada, and Mrs. R. L. Strone of Washington, D. C., came up from the

south and are transients on Ocean boulevard.

Mrs. E. G. Stevens and Mr. and Mrs. C. E. Chensvert and son, Jack, came over from Sanford last week and are enjoying a couple of weeks' visit at Mrs. Stevens' cottage on Halifax avenue. Mrs. Chensvert is Mrs. Stevens' daughter and had expected to come south early in the winter and spend the season in Seabreeze, but death in her family marred her plans.

Mrs. Ida Burkhardt and her sister, Miss Grimes, arrived from Brooklyn, N. Y., and are occupying the Burkhardt cottage on Valley street for a time.

Miss Margaret McCullough returned Monday afternoon from a very pleasant visit with Mrs. D. C. Thompson at her home in Orlando.

Jewett Orth made the trip in the aeroplane with Mr. Page Tuesday to his great delight, and the interest of his young friends.

A new supply of hymn books, which were required at the Tourists' Seabreeze church, arrived in time for the Sunday services. The church attendance continues large, though many familiar faces from the regular congregation were missed last Sunday.

Mrs. Adkins, who has been visiting her daughter, Mrs. D. D. Davis, and family at the Babcock home, left last week on her return to Lake Butler.

Mr. and Mrs. A. J. Reeves of Marietta, Ga., who have been with Mr. and Mrs. J. L. Dunn at their new cottage on Halifax avenue, re-latest week.

Mrs. Georgia K. Watts-Wilson of Valencia, Kan., and Mrs. Rhea Yates, sister-in-law of Governor Richard Yates of Illinois came from Jacksonville to Seabreeze to see the daughters of Helen Wilkins-Post. They were classmates of Helen Wilkins and said they could not come so near her home and not at least make an attempt to see her children and the spot she had so loved and made known to the world.

Mr. and Mrs. Geo. H. Sheets, Mr. and Mrs. Wallace Olds, Mr. and Mrs. R. S. Holmes and Mr. and Mrs. Smith G. Young made up a pleasant auto party for an overland trip to DeLeon Springs, DeLand, Orlando and other interior points Tuesday morning. If the weather continues fair they will not return home for two or three days.

#### MOST NOURISHMENT IN CHEAPER FOODS.

Dr. Rowntree, who has made a study of the causes of poverty, finds that nearly 60 per cent. of the expenditure for food by the poor was for animal food, while this amount furnished less than 40 per cent. of the total protein consumed. Sixty per cent. of the protein was furnished by 35 per cent. of the total expenditure, together with nearly 70 per cent. of the carbohydrate. The most important lesson that the poor need to learn in regard to food is, that it is not necessary to use flesh, eggs or sea food to be well nourished. For many years the writer has used none of these, while maintaining perfect health and working capacity, mental and physical.

#### WAS HER EYESIGHT FAILING?

Woman Who Could Not See the Tail of the Comma Went to Oculist.

Sometimes a comma makes a good deal of difference to the meaning of the sentence you happen to be reading. A woman who has reached the age of being called "Madam" by most shopkeepers, but whose friends always tell her how young and girlish she looks, was reading a newspaper paragraph. It didn't make any sense, so she read it again. Then she yanked the paper up close to her face, leaned toward the window and studied it out in a better light. Then she saw the tail on the comma. What had looked like a perfectly good period was after all but a division of a sentence.

She sat for a moment with the paper in her lap. Then she rose, walked to her looking glass, studied herself for a few seconds, put on her hat and hastened to an oculist. "I will not wait," said she to herself, "until I try to thread the point of a needle or humiliate myself by stooping to pick up a coin on a car platform and find it is a nail head worn smooth. I will turn my old age misapprehension as gracefully as possible. I wonder," said she with a sigh, "if the tail of that comma was perfectly plain, or was it blurred in the newspaper I was reading?"

#### Hoodooed Her Hair.

Another black mark has been chalked down against number thirteen.

"I did up my hair the other night in curl papers torn from an old calendar," said the pretty girl, "and in the morning when I took it down I had a row of beautiful curls all around my head except right over the left temple. That lock was as straight as a lead pencil, and I had dampened it with lemon juice just like all the others, but when I untwisted the paper I found out why it wouldn't curl. The page I had twisted it over was the thirteenth of the month."

#### Really Lucky Candidate.

It is a lucky candidate who is more talked about than talking.

### HOW HE KNEW.

Hubby—That milliner of yours must  
be a bird.  
Wife—Nonsense! She has neither  
wings nor feathers.  
Hubby—Yes, but just look at this  
bill of her.

### Wear of Traffic on Roads.

A machine that measures the wear  
caused by traffic upon public high-  
ways is among the scientific instru-  
ments on show at the exhibition of  
the Physical Society of London at the  
Imperial College of Science, South  
Kensington.

In speaking about this machine an  
official of the road board referred to  
the wear on the various main roads of  
London. "Wood pavement," he said,  
"wears down one inch in about six  
years, except in places where the traf-  
fic is particularly intense. The as-  
phalt pavement in the city wears  
down about half an inch in ten years.  
The ordinary country highway wears  
down two inches in from three to ten  
years, according to the amount of  
traffic."

### Small Boy as Conservationist.

A lecturer before a suburban wom-  
an's club raised his voice with em-  
phatic confidence. "I venture to as-  
sert," he said, "that there isn't one  
in this audience who realizes the im-  
portance of the conserving of our for-  
ests, not one who has ever done any-  
thing to prevent the destruction of our  
forests." A small boy who had ac-  
companied his mother to the lecture  
interrupted in a high, childish voice.  
"I once shot a woodpecker," he said.

### Bright Definition.

A teacher asked a boy the differ-  
ence between an island and a penin-  
sula. The boy replied: "Take a  
glass of water and a glass of milk.  
Catch a fly and put it in the water; it  
will be an island, because it is entire-  
ly surrounded by water. Put it in the  
milk and it will be a peninsula, be-  
cause it is nearly surrounded by wa-  
ter."

### Chinese Complexions.

The exquisite complexion of the  
young Chinese women is due to the  
great care which they give their skin.  
Generally speaking, the result is due  
to massage.

### CURIOUS BITS OF HISTORY

#### HUNTING A SHORT CUT TO CHINA.

By A. W. MACY.

Columbus was not seeking a  
continent, but a short cut to  
India and China. During his  
second voyage he skirted the  
coast of Cuba for several weeks  
in the confident belief that he  
was nearing "the City of Ce-  
thay" with all its golden treas-  
ures. For more than two cen-  
turies after his death naviga-  
tors sailed up and down the  
eastern coast of North America  
seeking a passage that would  
lead them to China. They did  
not realize that America was  
a vast continent in itself.  
Jacques Cartier, a French ex-  
plorer, circumnavigated the  
Gulf of St. Lawrence three  
times, following the coast line,  
searching for a passage to the  
Orient. He ascended the St.  
Lawrence river as far as the  
present site of Quebec, but he  
little dreamed that nearly 3,000  
miles of solid land yet lay to  
west of him, and beyond that  
the greatest ocean on the globe.  
And for a hundred years after  
Cartier died his successors con-  
tinued to search for a passage  
to the west in connection with  
the Gulf of St. Lawrence.

#### Fallen From High Estate.

Man has wandered so far away  
from the path of rectitude in diet that  
he has lost his instinctive guide. His  
sense of smell is nearly gone. His  
taste is perverted. He has lost his  
"horse sense," or monkey sense, and  
is left to wander in a wilderness of  
ignorance and disease. His only hope  
seems to be to sit humbly at the feet  
of a wise ape and learn the difference  
between food and poisons.—Good  
Health.

#### The Coeds' Best Mo'd.

Dr. Miner Lee Bates, the president  
of Hiram college, was talking at a  
tea in Hiram, O., about coeducation.  
"They may limit it as they will,"  
said Dr. Bates, "but there's one co-  
educational institution that is a ready  
larger than all other institutions com-  
bined, and that maintains year after  
year a steady growth. I refer to mar-  
riage."

#### Slight Misunderstanding.

Mrs. Oldtimer—"When we were in  
Egypt we visited the pyramids. They  
were just covered with hieroglyphics."  
Mrs. Newrich—"Horror! Weren't  
you afraid that some of the ugly  
things would get on you?"

In some parts of Syria the peasants believe that doctors and druggists have a right to kill one man and one woman every year to make medicines out of their bodies. A druggist whose establishment was boycotted because he was thought to have tried to murder a boy, brought suit against the boy's parents for their interference with his trade, but he received no damages, as it was recognized that the adults were believers in the old superstition.

**HON. WILLIAM H. MILTON  
A VISITOR TO DAYTONA**  
William H. Milton, one of the numerous candidates for governor of Florida before the coming primaries, was a visitor in Daytona Thursday evening and Friday morning. Mr. Milton's home is at Marietta. From here he went to New Smyrna and will continue down the coast to Miami and Key West. One of the principal planks in the platform of Mr. Milton is the establishment of a sugar cane farm in the Everglades where he proposes to work the state convicts.

**Wonderful "Snow Flower."**  
The "snow flower," so named because it blooms only in the depth of icy winters, is to be found growing on Siberian soil. When it opens, it is star-shaped, its petals of the same length as the leaves, and half an inch in width. A Russian nobleman took a number of the seeds to St. Petersburg. They were placed in a pot of snow and frozen earth. On the coldest day of the following January the miraculous flower burst through its icy covering, and displayed its beauties to the wondering spectators.

**Macedonia Rich in Minerals.**  
Since remote times the soil of Macedonia has had the reputation of containing many precious minerals. Not only was this stated by historians, but it is evident by the remains of great works undertaken by the ancients in the mining centers, and especially on the Peninsula of Chalcidice. These works reached the highest point of development under Philip of Macedonia and Alexander the Great.

**Eye Water Before or After.**  
"I thought that in the fifteen years of my practice of medicine," said a physician, "I had answered almost every possible 'fool' question; but a new one was sprung on me recently. A young man came in with an inflamed eye, for which I prescribed medicine—to be dropped into the eye three times a day. He left the office, but returned in a few minutes, poked his head in the doorway, and asked 'Will I drop this in the eye before or after?'—Everybody's Magazine.

**A. C. L. MAKES CHANGES  
IN SUMMER SCHEDULE.**  
W. D. Stark, traveling passenger agent of the Atlantic Coast Line, who is in Daytona, says the winter schedule is to prevail during the coming summer.  
Effective April 9, train 86, known as the Palmetto Limited, will leave Jacksonville at 1:00 p. m. daily, instead of 7:30 a. m., and will carry Pullman steel, electric lighted cars and dining cars. The Florida East Coast railroad will have a train which will pass through Daytona about 9:00 a. m., connecting at Jacksonville with Atlantic Coast Line train No. 86 and will carry two through Pullman cars from Key West to New York, besides other first class equipment, including new steel coaches, thus giving Daytona and this section the best summer train service it has ever had.  
Train No. 82, the Florida and West Indian Limited, will leave Jacksonville at 8:30 a. m. instead of 9:35 a. m., as at present, and will connect with all trains from Tampa, Saint Petersburg and that section.  
Train No. 80, the Coast Line Florida Mail, will leave Jacksonville at 7:55 p. m., as at present, connecting with all trains from the south, including East Coast points. All of above trains will carry latest Pullman cars built of steel and electric lighted.

**HE WAS WILLING TO OBLIGE**  
Young Man Gave Advice on Clothing Though He Came From Gas Company.  
"I've come to see about the mantles, miss."  
"Oh, yes, I'm so glad you have come so soon; will you step into the drawing room?"  
The young man stepped; he was pleased with his pleasant reception. After awhile he came in and said: "How do?" So sorry to trouble him, but would he mind if they tried the mantles on? Her daughter's was a trifle too full, and her own was a trifle too long, she thought. Perhaps he would be good enough to see.  
The young man said he would be only too delighted.  
The two elegant mantles in the latest style which were lying across the back of the sofa were donned, and the young man said he thought they looked charming. Yes, perhaps a little alteration was required, but if they would excuse him he would be glad if they would let him get on with his work and show him the gas burners that were requiring fresh mantles.  
Why! Wasn't he from Jiggins & Jungluses?  
"Oh, no, he was the young man that attended to the mantles from the gas company."

**Has the Eagle Faded.**  
Keep your ambition on the same grade with your opportunities, my son. It's more efficient there. The mosquito, for example, cannot soar so high as an eagle, but he can bully all the Christian graces out of a high-minded man while the eagle is merely making a moving picture of himself.—Exchange.

**WEDDING GLOVE FOR BRIDE**  
Third Finger Is Left Unstitched So That the Ring Can Be Slipped On.

A happy era has dawned for the bride at the fateful moment when the ring is about to be placed on her finger.

Instead of the usual struggle to remove her left hand glove she will now be able to uncover the third finger without effort and without losing her composure.

This delightful result is to be obtained by an ingenious "wedding glove" device. The inside seam on the third finger of the left glove is unstitched, so that all that the bride need do is to slip her finger through the slit to receive the ring. The finger can just as easily be slipped back into the glove after the ceremony.

The device will be greatly appreciated not only by the bride, but also by the nervous bridegroom.

The story of the origin of the wedding glove has come to light. Sometime ago a girl who had lost her right arm in the hunting field asked for a single wedding glove.

She remarked on the awkwardness of having to remove her glove with the help of her teeth, and it was then seen that matters would be greatly facilitated for the bride if she only had to uncover the ring finger.

The experiment was so successful that it aroused the interest of other prospective brides, who saw in it a boon which would save them from the usual difficulties of removing a whole glove in the moment when the ring is about to be put on.—Exchange

**BOOK TREASURES OF PAST**  
Immense Sums Invested in the Copying, Illuminating and Binding of Them by Hand.

The cost of materials and copying, illuminating and binding books by hand made them the treasures of rich collectors and the pride of museums, palaces and convent libraries. Immense sums were invested in them, and a rare or unusually original copy became a gem in value, as well as sentiment. Cicero, whose magnificent library was almost as famous as its owner's eloquence, declared that he had seen a parchment roll containing the entire "Iliad" of Homer, which was compressed between the shells of a nut, a work of extreme skill and patience, which a French savant, M. Huet, has since demonstrated was within the range of possibility. Many such tours de force are said to have demonstrated the skill of ancient copyists and their economy parchment and vellum.

In the eighth century it was with great difficulty that a monk of the rich Abbey of Saint Gall, France, gathered piece by piece sufficient parchment to begin the transcription of a rare work. Later, in 1120, a monk employed to prepare a copy of the Bible could not find in all England sufficient parchment for the purpose.—National Magazine

**PIGEONS ON A JAMBOREE**  
Drink Liquor Spilled in the Street and Gave Real Exhibition of Drunkenness.

A heavy truck loaded high with kegs of liquor was jolting across a line of downtown car tracks when one of the kegs toppled and fell from the top of the pile into the street. It was thoroughly smashed, so the truckman whipped up his team and went his way without stopping. The rum flowed out over the street—one little dent in the paving collecting a visible puddle of it.  
In a few minutes a pigeon came fluttering down to drink at the pool thus fortunately provided for thirsty birds. The initial taste was a surprise, but a second and a third soon followed, and soon the pigeon tottered fluttering away, too overcome to fly. Other birds, seeing him there and anxious to wet their parching throats on so sultry a day, followed their brother in his path of wicked intemperance.

Five minutes later a passerby was astonished to see a dozen pigeons in the gutter of the otherwise deserted street, some dancing drunkenly, others already sound asleep. A few feet away a hound of disreputable appearance was creeping up, slowly and a trifle unsteadily, on his unsuspecting and bibulous quarry. As he was almost among the birds his feet went suddenly in several directions and he lay in the gutter among the pigeons, growing sleepily to himself, for he, too, was drunk.

**Pulse Watch.**  
Among the ingenious devices of the physician may be mentioned a watch, constructed on the "stop" principle, whereby the number of pulse beats per minute may be indicated. A push-button is pressed at the beginning of the count and again at the twentieth pulsation, when the number of beats per minute is shown on a dial without the necessity of calculation. Still another push on the button brings the counter back to the starting point. In the ordinary method of taking the pulse the observer is obliged to do two things at the same time—count the beats and keep his eye on his watch. With the pulse watch only one operation is necessary, the counting of the population up to 20, when the push button is pressed.

James McNeill Whistler is said once to have confronted Oscar Wilde—at the height of the aesthetic movement—with Du Maurier, who was satirizing the Postlethwaites in Punch with all his might, and to have genially inquired: "Which of you two invented the other?"

**Rules for Talking Weather.**

The English are as insatiable in their weather as they are to a number of other things. They talk nothing else; but there is just a speciality about the conversation. It denotes it to be a standard form. If genuine feeling and emotion are expressed regarding it by an outsider they become suddenly touchy and what seemed neutral ground on which differing temperaments could meet with perfect amiability is seen to be no better than a bank of brilliant thistles. It is here that the rules of the weather game are seen more clearly. You may talk of it to the exclusion of everything else; you are regarded as difficult if you have an aversion to a certain amount of speech about it, and yet there are certain things you must never say about it, or, if you do, you must say them as though in spite of everything you would not exchange it for any other weather in the world, and you would defend it with your last breath.—Florida Pier in Harper's Weekly.

**A Joke.**  
Says one of the characters in a current play, speaking of his wife whom he wants to divorce: "She says that my meals are properly cooked, she runs my house, she takes care that the buttons are on my clothes, but does that make her a wife? Nope, it doesn't make her a wife. It makes her a jewel of purest rav serene.—Philadelphia Inquirer.
